SUMMARY

Aspiring Product Manager with 12+ years of experience in building and leading iOS products used by 100,000+ users. Experienced in roadmap planning, requirement workshops, data-driven feature prioritization, and leading cross-functional teams from discovery to launch. Improved retention by 35% over 24 months for a B2B product and maintained a 97% crash-free rate for three years. Airtribe-certified GenAI Product Manager, transitioning into a full-time product management role.

WORK EXPERIENCE

Team Lead **January 2025 – September 2025**
NoblQ Pvt.Ltd. *Chennai*

- Defined product roadmap and prioritized features based on user research, accelerating delivery by 20% and aligning releases with ROI goals for 5+ client projects.
- Facilitated requirements workshops, translating business needs into scalable solutions and reducing change requests by 25% for new product launches.
- Directed modular component development, boosting code reuse and cutting time-to-market for launches by 20% across three product cycles.
- Partnered with engineering teams to optimize API integration, reducing errors by 15% and increasing user reliability metrics.
- Oversaw product launches and performance efforts, delivering a 10% speed improvement in app workflows and enhancing user experience for 35,000+ users.
- Led incident response and rapid bug resolution, achieving 98% application uptime and growing customer satisfaction scores by 8 points.
- Mentored 8+ team members, elevating delivery quality; recognized for driving capability expansion and preparing leads for new responsibilities.

IOS Lead Developer **November 2020 – August 2024**
Virtusa Consulting Services Pvt. Ltd. *Chennai*

- Drove feature planning aligned with evolving business objectives, contributing to seven major releases and a 22% rise in user satisfaction.
- Designed and validated user interfaces, increasing engagement by 25% and reducing support tickets by 18% via improved usability.
- Standardized reusable components, shortening development cycles by 15% and enabling faster feature rollouts across four product lines.
- Collaborated across teams to ensure seamless API integration, strengthening data integrity and overall platform reliability.
- Delivered performance upgrades, reducing load times by 22% and supporting scalability for 5,000+ concurrent users in a live environment.
- Directed ongoing bug triage and hotfixes, sustaining a 97% crash-free rate across 3 years and ensuring high-quality product experiences.
- Implemented offline functionality with Core Data, lifting user NPS by 10% in low-connectivity regions and expanding market reach.
- Championed continuous learning initiatives, mentoring 9 developers and increasing adoption of product best practices across teams.

Lead IOS Developer **September 2017 – March 2020**
Smacar Solutions Pvt. Ltd. *Chennai*

- Led lifecycle management for 3 B2B mobile products, prioritizing roadmaps and supporting 40,000+ active users with regular feature updates.
- Coordinated stakeholder input to define high-impact features, maximizing business value using user and revenue analytics.
- Drove feature adoption via iterative releases, increasing retention by 35% within 24 months and boosting revenue by 18%.
- Directed performance optimizations, reducing crash rates by 40% and cutting support response times by 25%.

Senior IOS Developer **October 2016 – July 2017**
Capital Numbers Infotech Pvt. Ltd. *Chennai*

- Gathered requirements with clients and PMs, launching two enterprise applications aligned to business objectives and delivering on-time go-lives.
- Designed user-centric interfaces, improving user satisfaction by 30% and simplifying onboarding experience for new clients.
- Established component standards, reducing technical debt and lowering maintenance overhead by 18%.
- Orchestrated service integration testing, reducing post-release defects by 15% while ensuring data accuracy.
- Optimized data visualization features, increasing reporting speed by 20% and usability for business stakeholders.
- Led debugging initiatives, achieving 96% user satisfaction and maintaining high platform quality.
- Rolled out offline-first features, increasing product adoption in low-connectivity regions by 15%.
- Facilitated knowledge-sharing sessions, accelerating onboarding and driving higher team productivity.

IOS Developer **December 2015 – September 2016**
Agaram Infotech Pvt. Ltd. *Chennai*

- Collaborated with stakeholders to define MVP scope for two new apps, enabling on-time product launches and faster time-to-market.
- Partnered with UI/UX teams to design intuitive interfaces, driving early adoption rates among target user groups.
- Authored modular app features, improving release velocity by 12% and enhancing flexibility for future updates.
- Directed API integration verification, ensuring smooth rollouts and robust data flow across iterations.
- Optimized data pipelines, reducing latency and supporting improved in-app analytics for business stakeholders.
- Led product defect triage, maintaining high quality standards through multiple release cycles.
- Implemented offline access, raising NPS in rural segments and improving retention metrics.

IOS Developer **June 2013 – December 2015**
Raka Tech *Chennai, Tamil Nadu*

- Coordinated with cross-functional teams to define requirements, ensuring MVP launches were market-ready and aligned with product strategy.
- Enhanced user flows through UI/UX collaboration, lowering churn and raising first-time user retention to 85%.
- Produced reusable code assets, accelerating development for subsequent features and supporting scalable app growth.
- Validated API integrations, improving data accuracy and maintaining stability post-release.
- Optimized mobile data processing, reducing module load times and supporting the integration of real-time analytics.
- Executed product support initiatives, sustaining 95% overall stability across all iOS portfolio apps.
- Enabled offline capabilities, leading to a 25% uptick in adoption within connectivity-challenged regions.
